RAISING THE STANDARD

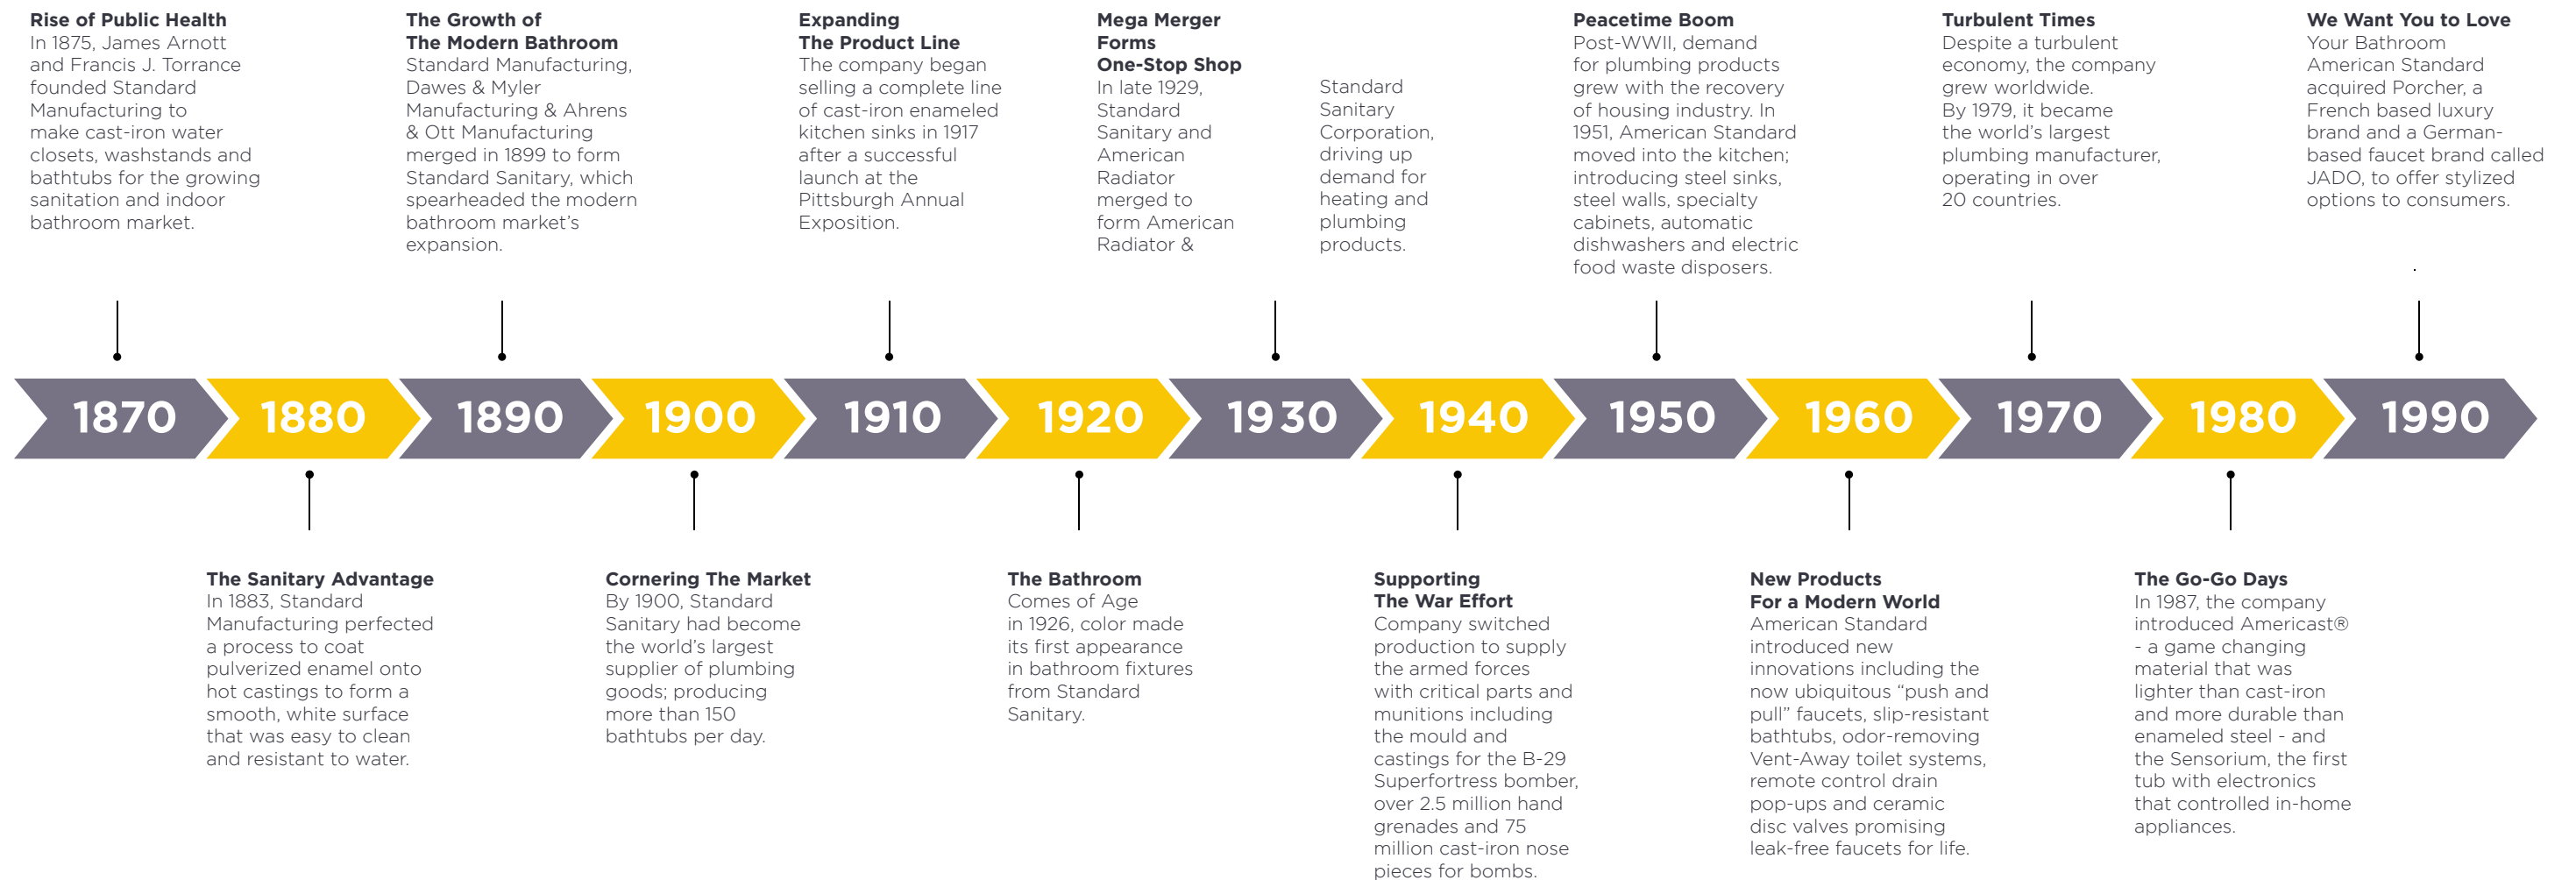

Every day our goal is to find more ways to improve life in and around the bathroom and kitchen, sometimes in obvious ways, other times in more subtle ways. We examine everything and are willing to challenge everything. No matter how good our products are today, we know we can always be better tomorrow.

Not just “our standard,” but “the standard” for living healthily, responsibly and beautifully everywhere. It’s “the standard” we’ve set and reset since 1875. It is “the standard” that is reflected in every product we make and represented in our highest ambition and deepest commitment to our employees, partners, trade professionals and customers worldwide.

At American Standard, we raise the standard by making technologies and designs accessible.

OUR JOURNEY TOWARDS RAISING THE STANDARD

TODAY

Fresh Ideas For a New Generation
In 2013, American Standard joined LIXIL, a global leader in products and services for housing and building projects, and houses a family of world-class brands including GROHE, INAX and DXV.

LIXIL Link to Good Living

Raising the Standard
American Standard continues to raise "the standard" for living healthily, responsibly and beautifully everywhere, and making technologies and designs accessible to all.

GOOD DESIGN AWARD 2014
American Standard wins 2014 Good Design Award for its Acacia Evolution basin mixer.

DOUBLE VORTEX
Maximum flushing performance, minimum water usage.

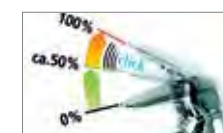

AQUA CERAMIC
Super hydrophilic technology prevents dirt and dark ring stains from sticking to ceramic surface.

ECOSTART
Provides up to 30% energy savings.

COMFORTCLEAN
Effectively kills E. coli bacterial according to tests done with IMSL.

CLICKMOVE
Provides 40% water savings with ease of control.

REALISING OUR PROMISE THROUGH OUR BRAND PILLARS

Basin and Accessories not available in Australia

Our continuing quest to raise the standard of living in and around the bathroom has been made possible through our 4 key guiding principles.

INVITING STYLE

We believe every function deserves a well-designed form. Our products offer style that is personal, approachable and satisfying. It's style that fits perfectly into your life.

PURPOSEFUL FUNCTION

Our products are designed to make life healthier, safer, easier and more beautiful, while contributing to the efficient use of water and the sustainable development of society.

SUPERIOR PERFORMANCE

For the past 140 years, American Standard has set and reset the standard for products that work and wow. We build worry-free performance into every product we make.

BUILT TO LAST

From the materials we use to the care we put into building them, our products are made to stand the test of time. It's quality you can depend on today and be confident in for a lifetime.

DESIGN VALUES

INVITING

Our product collections have been thoughtfully created to reflect our core design values that not only offer style that is personal, approachable and satisfying but also make life healthier, safer, easier and more beautiful, to perfectly fit the discerning needs of consumers.

DEPENDABLE

Since the 1870s, American Standard has been bridging aesthetics with functionality to deliver dependable consumer-centric designs that are built to last.

PIONEERING

We keep the pioneering spirit alive in our product designs by integrating technological and sustainable features to produce award-winning designs.

SIGNATURE ELEMENTS

PILLOW

On the contour or on a main surface, the pillow is mainly used to provide a soft and welcoming look and feel to the product which invites user interaction.

LINE

The line is a flexible element which is often used as a detail on products to highlight functionality, increase comfort and provide a more sophisticated appearance.

FRAME

Used vertically or horizontally the frame format has been forever used to shape the consumer electronics and is now embedded in our psyche as a symbol of innovation.
